### CAREER OUTLOOK

The Associate Degree Nursing program can lead students into a number of occupations, which may include registered nurses, nurse anesthetists, and nurse midwives. Many of the Associate Degree Nursing program students will enter the Forsyth Tech Service Area<sup>2</sup> workforce.

Using the regional number of unique job postings for these occupations (868) and subtracting the FY 2019-20 Forsyth Tech completers that may fill these openings (104), we arrive at a gap of 764 job postings.<sup>3</sup> The top three posting companies are Emerald Health Services, Novant Health, and Bayada Home Health Care.

- 1 The Associate Degree Nursing program is defined by the following Classification of Instructional Programs (CIP) code: Registered Nursing/Registered Nurse (51.3801).
- 2 For the purposes of this analysis, the Forsyth Tech Service Area is defined as Forsyth and Stokes Counties.
- 3 The number of job postings may be conservative given employers, such as hospitals, may hire multiple workers using one job posting. Also, for the purposes of this analysis, only Forsyth Tech completers were considered when comparing to unique job postings.

## STUDENT RETURN ON INVESTMENT

To earn a degree in the program, students experience costs in the form of tuition and fees, books and supplies, and the opportunity cost of attending school instead of working. In return for this investment, students can earn higher wages. For every dollar students invest in their education in the program, they will receive \$8.10 back over the course of their working lives. This investment can also be seen in terms of a rate of return of 31.5%. This is an impressive return, especially when compared to the U.S. stock market 30-year average return of 10.6%.

## TAXPAYER BENEFITS

Taxpayers will receive an estimated present value of \$6.4 million in added tax revenue stemming from the students' higher lifetime earnings and the increased output of businesses. Savings to the public sector add another estimated \$139.9 thousand in benefits due to a reduced demand for government-funded social services in North Carolina. Throughout the students' working lives, North Carolina taxpayers will receive a total of \$6.5 million in benefits.
