The Nursing program\(^1\) was established in 1974. In FY 2019-20, NCC enrolled 91 students in the program. Of these students, 47 graduated with an associate degree in FY 2019-20.

**CAREER OUTLOOK**

The Nursing program can lead students to become registered nurses. Many of the Nursing program students will enter the Nash County workforce.

Using the county number of unique job postings for these occupations (214) and subtracting the FY 2019-20 NCC completers that may fill these openings (47), we arrive at a gap of 167 job postings.\(^2\) The top three posting companies are Emerald Health Services; WakeMed; and Rocky Mount Rehabilitation Center.

**ALUMNI IMPACT**

Former students of NCC’s Nursing program added $1.7 million in income to the Nash County economy in FY 2019-20. This figure represents the increased wages collected by former students active today in the county workforce as a direct result of their education, the increased output of businesses that employ these students, and the multiplier effects that occur.

---

1. The Nursing program is defined by the following Classification of Instructional Programs (CIP) code: Registered Nursing/Registered Nurse (51.3801).
2. The number of job postings may be conservative given employers, such as hospitals, may hire multiple workers using one job posting. Also, for the purposes of this analysis, only NCC completers were considered when comparing to unique job postings.
STUDENT RETURN ON INVESTMENT

To earn a degree in the program, students experience costs in the form of tuition and fees, books and supplies, and the opportunity cost of attending school instead of working. In return for this investment, students can earn higher wages. For every dollar students invest in their education in the program, they will receive $7.50 back over the course of their working lives. This investment can also be seen in terms of a rate of return of 32.0%. This is an impressive return, especially when compared to the U.S. stock market 30-year average return of 10.6%.

LIFETIME EARNINGS OF A PROGRAM COMPLETER COMPARED TO A HIGH SCHOOL GRADUATE

TAXPAVER BENEFITS

Taxpayers will receive an estimated present value of $1.5 million in added tax revenue stemming from the students’ higher lifetime earnings and the increased output of businesses. Savings to the public sector add another estimated $54.5 thousand in benefits due to a reduced demand for government-funded social services in North Carolina. Throughout the students’ working lives, North Carolina taxpayers will receive a total of $1.6 million in benefits.
